"Final Resting Place"

It's been almost a year ago
That I felt that cold wind blow
Swept in, took a friend, stole him from my life
Left me standin' broken down alone and mystified

Sometimes I stare into the heavens
Up into the starlit sky
Wondering if there's someone out there
Watching over all of us with a place for you and I

What happens when the lights go out
Is there something more to find
Or will it be just memories left behind the time
Is there an answer or must we wait until we fade
Into the darkness, into the final resting place

If my time should come tomorrow
Will there be a path to follow
If my time should come tomorrow
Will I see a friendly face

If there was just a way
I could find some kind of rhyme
To the questions ohh ohh that echo in my mind
Is there an answer or must we wait until we fade
Into the darkness, into the final resting place

Is there an answer or must we wait until we fade
Into the final resting place.
