i wanna be somewhere where i know that i'm gonna do  
something  
i wanna get somewhere and i know that i've gotta  
decide  
if i can leave somewhere where i know i might never do  
nothing  
i've never been so scared and i know i might run out of  
time  
I wanna be somewhere where i know that i'm gonna do  
something  
(I wanna be somewhere where i know that i'm gonna do  
something)  
i wanna get somewhere and i know that i've gotta  
decide  
(i wanna get somewhere and i know that i've gotta  
decide)  
if i can leave somewhere where i know i might never do  
nothing  
(i don't wanna jinx it and i know that i might not make it  
but i've gotta believe that i'm gonna be fine)  
i've never been so scared and i know i might run out of  
time  
I wanna be somewhere where i know that i'm gonna do  
something  
i wanna get somewhere and i know that i've gotta  
decide  
if i can leave somewhere where i know i might never do  
nothing  
i've never been so scared and i know i might run out of  
time  
i might run out of time  
(don't wanna hope cause i don't wanna jinx it)  
i might run out of time  
(and i know that i might not make it)  
i might run out of time  
(but i've gotta believe that i'm gonna be fine)  
i might run out of time
