Don't you think it's weird that you keep on coming like
theres no tomorrow
We just have to try, to fight the war thats goin on.
Your face just a disgrace, your lauph is so crap, your
eyes,dark as night yourself is untitled.
You try to stop it now, but it's already started.
But you keep coming back!
We just have to try to fight the war thats goin on
Your face just a disgrace your lauph is so crap your
eyes dark as night yourself is untitled.
Don't you think it's gay that you keep trying to do it
again!
We just have to try to fight the war that's goin on.
Your face just a disgrace,your laugh is so crap, your
eyes dark as night yourself is untitled, untitled,
untitled
