Can't always run from this world and make believe your
own
Even when life is so bad you don't really have to let go
Maybe this time we'll make it forever
Maybe this time will last us a lifetime
We have to love just a little bit harder
Let our love become what we'd like it to be

CHORUS:

Won't you please just be my angel
High in the sky with our love for each other
Won't you please just be my angel
Heaven on earth whenever we are together, now

Let's get the most out of life just makin' each other
grow
No promises made at all that this life will always glow
Just let me be what I truly am and I'll let you be yourself
There's so much that this world can give us
So much to see, it's there for you and me

CHORUS:

Won't you please just be my angel
High in the sky with our love for each other
Won't you please just be my angel
Heaven on earth whenever we are together, now

INTERLUDE:

Then...
Just let me be what I truly am and I'll let you be yourself
There's so much that this world can give us
So much to see, it's there for you and me

CHORUS:

Won't you please just be my angel
High in the sky with our love for each other
Won't you please just be my angel
Heaven on earth whenever we are together, now
Won't you please just be my angel
High in the sky with our love for each other
Won't you please just be my angel

Heaven on earth whenever we are together, now
