The Legion Of Vengeance

[Text: T.Scorn, Music: I.Hate]

A passed sacrifice unknown to the living - All these  
kingdoms sacked  
Goals justifying means - Vengeance on banners black  
Preachers of truth - Teachers of practicality  
Representatives of inhumanity - Symbols of moral  
insanity  
Children of lies - Fathering the irrefutable  
Children that died - As aliens to the incurable  
The most ancient lineage - The clarity of boiling blood  
Of all genders and races - Behold the legion rise from  
the mud  
A force unknown yet feared by the living - An  
intellectual fascist pact  
Means justifying goals - Vengeance on banners black.
