I watch the big hand of the clock
I need no drink to forget
what Iâ€™ve never seen and I never thought
and all the people I met
canâ€™t catch the cockroach on my desk
and i canâ€™t reach you.
thatâ€™s the way, the way it is

I think it over how it was
baby, you in my arms
I felt your fingers touch my face
nothing could do me no harm now you go your way and
Iâ€™ll go mine thatâ€™s the way, the way it is

all you gave was your adress I was in need of your heart
you said you were sorry when you left
and I believed in you
now time will tell
whatâ€™s right or wrong
thatâ€™s the way, the way it is
