I hopped off the bus we were singing a song
I heard for ten bucks you can park on the lawn
There?s a man on the corner who?s buying and selling
Long as they?re legit the cops aren?t telling

I want to be under the lights
Swept away, hot summer nights
If you give me your heart, if you give me it all
I promise I?ll stick around for the fall

From the barber shop, to the corner store
It?s like the whole city?s buzzing
I came last week and the week before
Feels like the Ti-Cats are humming
The Ti-Cats are humming

Musical interlude

I saw some old friends from down in TO
But old Queen Lizzy take well ?em back home
They looked so sad at the end of the night
Blown out like Pink Floyd back in ?75

I want to be under the lights
Swept away, on summer nights
Around here folks like to say
Christmas might as well come on Labour Day

From the barber shop, to the corner store
It?s like the whole city?s buzzing
I came last week and the week before
Feels like the Ti-Cats are humming

The Ti-Cats are humming x2

Musical Interlude

I was down ten bucks and was taking a beating
But I?ll double up I got a good feeling
Next round?s on me if we cover the spread
Next round?s on me I?ll be out of the red

I want to be under the lights
Swept away, hot summer nights
If you give me your heart, if you give me your all
I promise I'll stick around for the fall

From the barber shop, to the corner store
It's like the whole city's buzzing
I came last week and the week before
Feels like the Ti-Cats are humming

Feels like the Ti-Cats are humming x2
The Ti-Cats are humming x2
