

## Sparrow And The Workshop

### "Snakes in the Grass"

Visit "[Snakes in the Grass](#)" on MotoLyrics.com

I'd like to chase you through the grass  
but I know, I'm far too slow  
so please lean back, lean back and let me rest  
beside your shadow.

Listen to mother cuz she's been here longer,  
she said she warned us before  
playing with fire is playing with power  
physical strength is not enough

I'd like to chase you through the grass  
but I know, I'm far too slow  
so please lean back, lean back and let me rest  
beside your shadow, shadow.

Listen to mother cuz she's been here longer,  
she said she warned us before  
playing with fire is playing with power  
physical strength is not enough

Lost in a forest with a whore and a liar  
baby you know who you are  
Lost in a forest with a match and desire  
baby you know where you're going

I'd like to chase you through the grass  
but I know, I'm far too slow  
so please lean back, lean back and let me rest  
beside your shadow.
