That girl was made for havin' fun -  
looking like an incarnation.  
This boy is thinkin' one on one - physical  
communication.  
Every time she looks at me - what du you know?  
I'm ready to go.  
She's still young enough to bring the generation swing.

That girl can really tantalize - movin' like an innovation.  
This boy was taken by surprise - comin' out of isolation.  
She don't need no symphony - totally hot  
ready or not.  
That girl's young enough to bring the generation swing.

She say: dup dup dup dup dup dup dup do wa -  
You gettin' an invitation

Dup dup dup dup dup dup dup do wa - part of the  
delegation

Dup dup dup dup dup dup dup do wa - doin' the  
generation swing.

That girl is in to something new - a little bit of liberation.  
This boy is learnin' what to do - workin' on an  
education.  
We don't need no symphony - ready or not  
totally hot.  
We're still young enough to bring the generation swing.  
She say: dup dup dup dup dup dup dup do wa - . . .

We don't need no symphony - totally hot  
totally hot.  
We're still young enough to bring the generation swing.  
She say: dup dup dup dup dup dup dup do wa - . . .  
Dup dup dup dup dup dup dup do wa - . . .
