Oh no, their you go fallin' in love  
I told you I'd never let it get that far  
I told you once, told you twice  
You never listen to my advice  
Now you've fallin' and baby you gots to go

To the lonely part of town  
Where heartbreaks come by the pound  
And tears keep the beat  
To a honkey tonk song  
Where love always goes wrong  
And nights take too long  
You've got company, leave this boy alone

Oh no, their you go fallin' in love  
I told you I'd never let it get that far  
I told you once, told you twice  
You never listen to my advice  
Now you've fallin' and baby you gots to go

Blue are the skies that once smiled on us  
Excuse me darlin' but, that's my bus  
Oh no, their you go fallin' in love  
I told you I'd never let it get that far  
I told you once, told you twice  
You never listen to my advice  
Now you've fallin' and baby you gots to go  
Now you've fallin' and baby it's time to go  
Now you've fallin' and baby you got to go
