Don't change, whatever you do
You might turn around and hurt somebody new
And if you'll stay, I'll stay with you
We could turn this around with all that we've been
through

So don't take what they're giving you
Can't change what you can't undo
Start thinking it over
Don't take what they're giving you
Can't change now you know it's true
Start thinking it over

Run for cover they're taking over
But it's just another ordinary day
Don't let them tell you some may suffer so we can
prosper
But it's just another ordinary daaaaaayâ€¦
