Peasants gather round oh beautiful mutants
Hello, good evening, glad you could come
For time is dead, no longer here

With your back in the sack
And your leather anorak
Do you feel dark?
In a masque in a cast
Its our only other chance
Oh I could do nothing to miss you

Shock (shock) there were two of us
Easing the gentlemen out of the skin, oh
Huzzah the times are fun now
The beauty of poison
Shock (shock) there were two of us
Easing the gentlemen out of the skin, oh
Huzzah, the times are fun now
This is the beauty of poison
The beauty of poison (x3)

Molted down into the rubber we're so tight
Turn back burn back turnstile
Is this what you wanted?

With your back in the sack
And your leather anorak
Do you feel dark?
In a masque in a cast
Its our only other chance
Oh I could do nothing to miss you

Shock (shock) there were two of us
Easing the gentlemen out of the skin, oh
Huzzah, the times are fun now
The beauty of poison
Shock (shock) there were two of us
Easing the gentlemen out of the skin, oh
Huzzah the times are fun now
This is the beauty of poison
The beauty of poison (x3)

Peasants gather round oh beautiful mutants
Hello, again, glad that you came
You can't condemn to save

With your back in the sack
And your leather anorak
Do you feel dark?
In a masque in a cast
Its our only other chance
Oh I could do nothing to miss you

Shock (shock) there were two of us
Easing the gentlemen out of the skin, oh
Huzzah, the times are fun now
The beauty of poison
Shock (shock) there were two of us
Easing the gentlemen out of the skin, oh
Huzzah the times are fun now
This is the beauty of poison
The beauty of poison (x3)
