I lay in bed awake just wishin you were here,
I can't sleep at all.
We both know only time can tell what can become,
of what you know I really want.

I lay in bed awake just wishin you were here,
I can't sleep at all.
We both know only time can tell what can become,
of what you know I really want, yea baby.

Chorus:
I wish that this could last forever,
But I need for you to want it to.
How can we make it till tomorrow,
If you think today is the end, so come on.

Yea yea,
I lay in bed awake just hopin you'll come back,
An hour passes by with no call at all
I try to figure out where I have gone wrong,
Hopin you feel the same about me, and maybe babe

Chorus:

Bridge:
And I open my eyes and you were almost gone,
Said I really got a wake up call.
And I know that things are bad now but it wasn't ever,
I wanna be with you forever and ever and ever.

Repeat Chorus 2x:
