"Bag Of Gold"

You found me
Right when
I was in
The land

Of the dark and cold

Don't forget everything
That we have been
A-fighting for
Because we'll win this war
We will win this war

Grab this bag of gold
That was ours to hold
[x2]

We'll stay up on guard
All through the night
Find a place to hide
Until it's time to strike

They must know
That we will never leave
Even if they tried
Even if they tried

Grab this bag of gold
That was ours to hold
[x2]
