I've been watching the sun shine  
Down upon you  
Not much that I could do  
But sit and dream about you

Cause every time I hear your voice  
I am lost in each and every phrase  
Listen to you sing that song of grace  
Lying here in a happier place

And ill beâ€¦  
Watching the sun shine down  
On this lake  
Wishing you were here with me  
to take my breath away

You can run your fingers through my hair  
oh baby I really just won't care  
Just feeling the good old summer air  
Living life with not a single care  
(ba ba ba ba ba ba)

Cause every time I hear your voice  
I am lost in each and every phrase  
Listen to you sing that song of grace  
Lying here in a happier place  
(ba ba ba ba ba ba)

It's just the way you are  
The way I feel  
And with you  
Its like a nice sunny day  
Sunny day  
Sunny day
