Paranoia...  
Is hunting you.  
And all these dirty looks,  
Well, they are right on cue.  
You're full up to the brim,  
With that "he said, she said" trash.  
You exist behind your keyboard ,  
And then you're gone in a flash.

Ten bucks says you don't have it in you,  
To conquer fear and quit believing what they tell you  
to.  
You are careening shamelessly into oblivion,  
Where you will live alone with your chemicals and gin.

I'm utterly disgusted with the path you trek.  
As inebriated as you can get off your latest paycheck.  
I am at a loss for words here.  
I hate to break this to you but being a coward is not a  
legitimate career.

Ten bucks says you don't have it in you,  
To conquer fear and quit believing what they tell you  
to.  
You are careening shamelessly into oblivion,  
Where you will live alone with your chemicals and gin.

We were born and raised the same way,  
So what gives you the right to say...  
At least I'm not a liar.  
(We were born and raised the same way,  
So what gives you the right to say...)

At least I'm not a liar.  
At least I'm not a cheat.  
At least I don't care what these goddamn mindless  
people think of me.

Ten bucks says you don't have it in you,  
To conquer fear and quit believing what they tell you  
to.

You are careening shamelessly into oblivion,  
Where you will live alone with your chemicals and gin.

(We were born and raised the same way,  
So what gives you the right to say...)  
Where you will alone with your chemicals and gin.  
(We were born and raised the same way,  
So what gives you the right to say...)  
You will live alone with your chemicals and gin.
