It was in the lobby when I set my sights on you.  
Should have kissed you in the elevator.  
But I was too scared to.  
It was in the morning when I made up my mind.  
I want you staplegunned right to my side all of the time.  
Whooa.

Do I have to spell it out for you?  
Or scream it in your face?  
Oh the chemistry between us could destroy this place.  
Do I have to spell it out for you?  
Or whisper in your ear?  
Oh just stop right there, I think that we've got  
something here.

We were all alone when I finally made a pass at you.  
It didn't work and no it never does, but you know how I  
do.  
We were on the phone when I made up my mind.  
I want you staplegunned right to my side all of the time.  
Whooa.

Do I have to spell it out for you?  
Or scream it in your face?  
Oh the chemistry between us could destroy this place.  
Do I have to spell it out for you?  
Or whisper in your ear?  
Oh just stop right there, I think that we've got  
something here.
