Dubmobile

Now I'm the main man at the microphone stand  
I chat two words just to make you understand  
I'm the main man at the microphone stand  
I chat two words just to make you understand

I see a set of wheels and I like the touch an' feel  
Me love it even better when me sit behind the wheel  
I got ambition an' den me find ignition  
Then the dealer ask me if I like electric transmission  
The dealer asks if me like plenty of vision,  
Yes me boss I want no collision  
No collision

Now I'm the main man at the microphone stand  
I chat two words just to make you understand  
I'm the main man at the microphone stand  
I chat two words just to make you understand

So I take a test drive and eat everything alive  
When I clock the needle move, I couldn't believe me eyes  
It touched 140 to my suprise  
Then I stop an' think this car is for me  
When me come back him wan' talk 'bout money  
Me wan' buy the car on h.p.  
Long term credit and interest free, five year warranty,  
guarantee.

The dealer asks me like a power steering  
Dealer asks me like overdrive thing. yes me boss but
