I'm a one woman man after all these years

I've sailed with the tide on a sea of tears

Any port in a storm, I'd make my home

Any arms that were warm, when I was alone

[Chorus:]

When the moon was high, I would drift away

Into the night, until another day

When the sun comes up, I just wanna see

The woman that I love, lying next to me

I'm a one woman man I've got to say

You know that it hasn't always been this way

But that's all changed, I can say at last

I've waved goodbye to my chequered past

[Chorus]

I'm a one woman man & that's no lie

I've got no use for no alibi

Ain't got no time, cause time can fly

And when I'm not with her, then I can't get high

[Chorus]
