Appeal to the governor, of Louisiana  
You may get an answer the process is slow  
Federal court won, too much to open  
He's been there for five years and they won't let him go

(Chorus)

Tyler is guilty a white judge has said so  
What right do we got to say it's not so  
Tyler is guilty a white judge has said so  
What right do we got to say it's not so

(saxophone chorus)

Testify under pressure, a racist jury  
Government lawyers it's all for show  
Rows of white faces, false accusations  
He's framed up for murder, they won't let him go

(Chorus)

Police gun was planted, no matching bullets  
No prints on the handle, no proof to show  
But Tyler, is guilty, the white judge's said so  
They show him no mercy they won't let him go

(Chorus)

Appeal to the governor, of Louisiana  
You may get an answer, the process is slow  
Federal court won, too much to open  
He's been there for five years, they won't let him go

(Chorus X 2)

Tyler is guilty, a white judge has said so  
They show him no mercy, they won't let him go  
Tyler is guilty, a white judge has said so  
They show him no mercy, they won't let him go
