"Get It On Time"

If I never see you again,

Get it on time, get it on time,

And if I never sing your sweet song (kiss your sweet lips*)

Get it on time

And if I never cross the great divide

Get on the other ----- side -----

And if I never see you again,

Get it on time, get it on time

*I wrote down song instead of lips here -- i think it's

a lyric that changes when you repeat the music.

The long dashes are written on the score
