Girl you, one of a kind  
When I look at you  
The world stops  
And when I hear you  
The world comes alive

You the one for my life  
You make me high  
And I love you so much  
You are my life

Girl you, one of a kind  
When I look at you  
The world stops  
And when I hear you  
The world comes alive

You looks so beautiful  
You are the one from all  
And I need you right now  
To be by my side

Girl you, one of a kind  
When I look at you  
The world stops  
And when I hear you  
The world comes alive

Girl you, one of a kind  
When I look at you  
The world stops  
And when I hear you  
The world comes alive
