Lie alone in bed at night  
Feel the pull of a lonely day  
Thoughts like music start to play  
I wonder where you were today

(Baby blue)  
Baby baby blue  
Baby blue eyes I dream of you

Late at night  
When the whole world's sleeping  
I dream of you  
Close to you I feel your sweet heart beating  
I dream of you

Late at night late at night  
Honey late at night I dream of you  
I dream of you

Baby baby blue  
Baby blue eyes I love you new  
I hold you in my dreams tonight  
Hold you 'til morning light

(Baby)  
Baby baby blue  
(Baby blue)  
Baby blue eyes I dream of you  
(Baby)  
Baby baby blue  
(Baby blue)  
Baby blue eye I dream of you  
(Baby)  
Baby baby blue
