they taught me in school
that i didn't know a thing at all
and busy busy people passed me
as i strolled the hall
but what my educated friends
could have never had known
is i was contemplating my escape
and visualizing
i decided early that i had to have it all

26 or i won't make it
26 or else
26 or i won't make it
26 or else
do do do ba ba ba...
don't you think it

not far away i set a date
to rendezvous with myself
paid no attention to the schedules
set by somebody else
no
i couldn't say i had
a very different mission in mind
cause i was strategizing
my success and conceptualizing
i decided early that i had to do it right

26 or i won't make it
26 or else
26 or I won't make it
26 or else
do do do ba ba ba...
yeah yeah yeah
26 or i won't make it
26 or else
26 or i won't make it
26 or else
