too late for work again
so she had some wine instead

those worn out goals
seem insurmountable to what she has
her boyfriend says that trust
is something earned but love
is everywhere
she can't even hear through her lust

so don't talk loudly
when you're at a restaurant
it might be wise to ask
as if though nothing's up
a public intervention may be on its way
chrome buddy

it's a lie if i would say
that i'm better off
without you anyway
do you think that i would
spend every waking minute
if i didn't need you
didn't need you
didn't need you?

hung over
so to speak
hard to get on her feet
and a danish roll leaves a lot to be desired as her

only greeting
try to make up lost time
reflections catch her eye
and it's back to bed
with visions of the chrome in her head
so don't act tough and try to play it down
because the way you walk
automatically makes you a target
a whole new breed of support groups
are in the making

chrome buddy
it's a lie if i would say
that i'm better off without you anyway
do you think that
i would spend every waking minute
if i didn't need you
didn't need you
didn't need you

chrome buddy
it's a lie if i would say
that i'm better off without you anyway
do you think that i would spend every waking minute
if i didn't need you
didn't need you
didn't need you?
