"F.A.A"

Visit "[F.A.A](#)" on MotoLyrics.com

ask your education
why we all ignore the facts
choose to close our eyes
cause they know better than you and i

the scary truth
about flying the friendly skies
seems like everybody's dying
no one left to ask who first saw the fire

we're all flying by wire who has control
was bill gates ever a pilot
if ralph nader said
don't fly dc10 thousands every year
would they even hear fuel inerting is wise

but the cost is too high
your cooperation
please it seems we've overbooked
who'll give up their seat
don't be afraid of a little ice

this is your cowboy speaking
please prepare for flight so thank you
f.a.a thank you
f.b.i no one walks away
watch us die
