cite me
i'm who you're looking for
stop me before i go too far

help me
i cannot help myself

hold me
i'm responsible cuffs

please
it's better if i can't move towards you
you've got too much to prove

hear me
you can't hear nothin else

but you capital offense
who can stop the miracle cop
who can stop the biggest man
he can't stop

it's a miracle that i'm still alive
we're all as good as dead
it's gotta stop

the nazi profilers
the ego wielding machines
it's gotta stop
