Love Her  
When her cooking is bad  
She tries for you!!

Love Her  
When she makes you watch corny love drama's while  
the sport is on..  
she wants to share those moments with you!!

Love Her  
When she spends hours to get ready..  
She only wants to look herself best for you!!

Love Her  
When she buys you gifts you don't like..  
She puts in all her savings for u!!

Love Her  
When often her eyes water suddenly..  
She actually had a thought of losing you!!

< Take time to make her feel special in every way you  
can & even if you don't >

SHE'LL LOVE YOU ANYWAY  
coz its never been about "HER",  
its always all about "YOU"...

Seriously guys are incomplete without you ..)  
And remember guys..  
love is the only key to a girls heart . . â™ ¥
