

St. Lola In The Fields

"Fix"

Visit "[Fix](#)" on MotoLyrics.com

Why do you want to bleed
Why do you stay and fight
Why do you say those things
And then go and turn out the light
When I would do anything
I would change anything
I would be anything for you

Down down down we go
Your foot is still on the gas
You roll in the fire, you roll
Until it's just you and the ash
But I would do anything
I would change anything
I would be anything for you

You're a mess you're a wreck
You're this noose around my neck
Would you leave me hanging here
Would you even care
You're my jones you're my fix
Triple 7
Triple 6
One day I'll leave behind all this

Round and around we go
Killing me nice and slow
You say I'm guilty too
But I put the blame on you

But I would do anything
I would change anything
I would do anything for you
I Don't know what it would take
One day I'll walk away
As long as one day's not too soon
