"Hell To Heaven"

Visit "[Hell To Heaven](#)" on MotoLyrics.com

If I could understand why one land
Throws aside what others need to survive
Then maybe I could justify what I am seeing
I can't quite accept that we who have so much watch
others die
Who designed this world we live in?

Hand giving a hand
Giving the world a helping hand
It's falling around us now

If I could understand why one man
Lifts his hand to strike another down
Then maybe I'd believe the reasons that I'm given
I'd like to think it's just a few
Who make the rest of us comply
Who designed this world we live in?

Help turn round this hell to heaven

Hand giving a hand
Giving the world a helping hand
It's falling around us now

Help turn round this hell to heaven
Help turn round this hell to heaven
Who designed this world we live in?
Help turn round this hell to heaven
Who designed this world we live in?
Help turn round this hell to heaven
Who designed this world we live in?

Additional keyboards: Robbie Kilgore
