Another long night, caresses round me  
Shows no pity knows no shame  
To share its lifetime of endless moments  
Till I can touch the light again  
Everything changes, everything round us  
Everything matters after all  
Let something move me and I will follow  
Not walking blind but walking tall

Where does it say that we must hide  
Inside this cold divide where nothing good can grow  
When has a life been black and white  
Where it's only wrong or right, I never felt so low

Deliver me from my sad story  
I see hope in the morning light  
Come to me in love and glory  
I see hope in the morning light  
Bringing peace and understanding  
I see hope in the morning light  
Emotional and undemanding  
I see hope in the morning light

This heat that's growing from deep inside me  
Lighted by your burning flame  
But through the darkness when sleep surrounds me  
I'll wake up crying out your name  
There are no reasons, no lame excuses  
To lock up freedom and desire  
With love the power you came right through me  
And turned this ember to a fire
