One thing I know  
I've learned over all  
The more that you trust  
The harder you fall  
The more you believe  
The more you recall

You'll see the signs  
You'll hear the sound  
When your feeling of hope  
Is turned upside down  
My hope lay in tatters  
Lying cold on the ground  
When I found

You lied  
Form your head down to your toes  
You lied  
But somehow I know I'll survive  
And I can't believe another word you say  
So go your way  
You lied

You lied  
From your head down to your toes, you lied  
But somehow I know I'll survive  
And I can't believe another word you say  
So go your way

You lied  
Every little word you said, you whispered lies  
And right now I despise  
Every thing I find that came from you  
'Cos I hurt too  
You lied

You lied  
As you looked me in the eyes, I say you lie  
But somehow I knew I'd get by  
When nothing seems to matter anymore  
Who did you lie for

You lied  
From your head down to your toes, you lied  
But somehow I know I'll survive  
And I can't believe another word you say  
So go your way

You lied  
Every little word you said, you whispered lies  
And right now I know I despise  
Every thing I find that came from you  
'Cos I hurt too  
You lied
