I wanna know where you're going out tonight
I'm gonna dance with you, gonna make a spark ignite
I'm gonna let myself go cause I'm here for the party
I'm gonna let myself go cause I'm here for the party

You're in a different world to me, yeah yeah, I know
You're in a different galaxy, yeah yeah, woah
You're gonna take a chance with me, baby woah
Eh eh oh oh
Eh eh oh oh

Woah oh oh oh oh oh...

Lady, baby, I've been thinking that we, maybe
We could be lovers, you're my angel just for today,
If you're ready I'm ready, now let's get it, no time to waste
I'm gonna let myself go cause I'm here for the party
I'm gonna let myself go cause I'm here for the party

You're in a different world to me, yeah yeah, I know
You're in a different galaxy, yeah yeah, woah
You're gonna take a chance with me, baby woah
Eh eh oh oh
Eh eh oh oh

Woah oh oh oh oh oh...

In a dream I swear I saw your face,
Can't believe you're here with me baby
You're from a different place, a different world
Can you come here to save me?

That girl is badder than bad,
She makes you want what you can't have,
You're like a disease, I need some relief baby.

Let's go!

Put your hands up
Everybody in the building hands up, let's go

Put your hands up, I just wanna see your hands up right
now,
Cause I know that we're here for the party

Hands in the air

Woah oh oh oh oh oh...

You're in a different world to me, yeah yeah, I know
You're in a different galaxy, yeah yeah, woah
You're gonna take a chance with me, baby woah
Eh eh oh oh
Eh eh oh oh
