Maybe light a candle
Don't say a prayer for me
Feel alone 'cause I'm gone
I left you
Make Christmas your own

you throw the thought of us away
You'll be alone this holiday

I said it's cold in this town
And there's snow on the ground
Far from home
Not alone
I left you with nothing
And that's what you owe

you throw the thought of us away (you throw the
thought of us away)
You'll be alone this holiday

Maybe light a candle
Don't say a prayer for me
Feel alone
I left you the best time
Made christmas your own

you throw the thought of us away (you throw the
thought of us away)
You'll be alone this holiday

You'll be alone this holiday
