As in the way that the sun spits in your face  
Our love is too big for us to break  
You've got me wishing for the stars and outer space  
I'm holding onto this life and love and for  
The possibility  
You and me  
Let me be

I need to find a way  
To put this trouble behind us  
Can't spend my life in shame  
Making light of these dark days

As in the way that the rain spits in your face  
Just falling apart your lips to taste  
If I can give to you the stars in outer space  
I'm holding onto this life and love and for  
The possibility  
You and me  
Let me be

I need to find a way  
To put this trouble behind us  
Can't spend my life in shame  
Making light of these dark days

Another time and place  
Could put this trouble behind us  
Can't spend my life in shame  
Making light of these dark days

So far away  
So far away  
Look into your heart  
Let time beat this pace  
We're not so far away

The possibility  
You and me  
Let me be

I need to find a way  
To put this trouble behind us  
Can't spend my life in shame  
Making light of these dark days

Another time and place  
Could put this trouble behind us  
Can't spend my life in shame  
Making light of these dark  
Light of these dark  
Light of these dark days
