Just by the look of it
As in the way you wrote me off
I'm not suppose to see
Your eyes tell lies your mouth can never spill

I wasn't feeling it
Don't even mean to shake your hand
Guess you were born to quit
Your eyes tell lies your mouth can never spill
Eyes tell lies your mouth can never spill

So nice to meet you
I see right through that smile so in other words
So nice to meet you
I hope I never see your face again

Don't want a part of it
Don't want to be seen with a type like you
I know you were to quit
Your eyes tell lies your mouth can never spill

Can we got on with it
We both need to go our separate ways
And never be seen again
Your eyes tell lies your mouth can never spill
Eyes tell lies your mouth can never spill

So nice to meet you
I see right through that smile so in other words
So nice to meet you
I hope I never see your face again

Devil beside you
To watch you die when you can't find a remedy
So nice to meet you
I hope I never see your face again
I hope I never see your face again

I hope I never see
I hope I never see your face
I hope I

I hope I
I hope I
I hope I never see your face again

So nice to meet you
I see right through that smile so in other words
So nice to meet you
I hope I never see your face again

Devil beside you
To watch you die cause you can't find a remedy
So nice to meet you
I hope I never see your face I
hope I never see your face again
