

## Used, The "Men Are All The Same"

Visit "[Men Are All The Same](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Always safe to know, what is good for taking  
Blood stains from your clothes  
[Besides fire.]  
And like I said before  
When I bite your tongue out of your mouth, you'll know  
[You'll know]

Just what am I supposed to say?  
Tell you why I turned out this way?  
Don't make me, don't make me

If you love it, then let it go  
And how I died you'll never know  
Just don't blame me, don't hate me

You'll never make it alone  
[It's easier to go]  
You've always been on your own  
[It's easier to go]

Nothing safe feels real  
Waiting here to die just hoping I will feel  
[Feel something]

Picking up my brains  
You can tell your mom that men are all the same  
[The same]

Just what am I supposed to say?  
Tell you why I turned out this way?  
Don't make me, don't make me

If you love it, then let it go  
And how I died you'll never know  
Just don't blame me, don't hate me

You'll never make it alone  
[It's easier to go]  
You've always been on your own  
[It's easier to go]  
You'll have to pay to watch me die

And then I'll love you more  
You'll never make it alone  
It's easier to go  
It's easier to go

Nowhere to go, I'm not leaving  
Not going, I'm not kissing you goodbye, on my own  
I'm nothing, just bleeding  
I'm not kissing you goodbye

You'll never make it alone  
[Let it go, I'm not leaving]  
You've always been on your own  
[Not going, I'm not kissing you goodbye]  
You'll never make it alone  
[On my own, I'm nothing, just bleeding]  
You've always been on your own  
[I'm not kissing you goodbye]

You'll never make it alone  
[Let it go, I'm not leaving]  
You've always been on your own  
[Not going, I'm not kissing you goodbye]  
You'll never make it alone  
[On my own, I'm nothing, just bleeding]  
You've always been on your own  
[I'm not kissing you goodbye...]
