Jamie's on the bathroom floor she don't know why

she's shaking underneath the sink can't feel a thing

she'd love to live a life, she's too afraid of failure

with all the voices in her head

and what was that I thought I heard you scream

I know you can feel it

you're already there

asleep underwater

just screaming for air

I know you can feel it

you're already...

don't you know we're freaks and creatures

wake up, I can almost see the light

I think we're alone here, you and I

I think we're alone left wondering why

I think we're alone here, you and I

I think we're alone in the universe tonight

Alex is on the last train home from god knows where

a million miles away from where he thought he'd be

he's got his suit his tie his drink his MTV

he's draining all his life away

you can't escape we're all infected now

I know you can feel it

you're already there

asleep under water

just screaming for air

I know you can feel it

you're already...

don't you know we're freaks and creatures

wake up I can almost see the light
