

## Armagedda

### "The Juggernaut Divine"

A final sign the sky is falling down  
This world has come undone  
Armageddon has arrived  
In the shape of a killing machine

Destroying you  
Pulling you under it's wheels  
Crushing you

A sadistic instrument of pain  
To hunt down our race like animals

Invincible - eraser of life - truly evil  
The juggernaut divine

A warcry killing the unborn  
Suffocating heat and the stench of  
Burning human meat  
Our culture now destroyed forever

As the war machine keeps turning  
The flames of hate - still burning
