"Gone To Your Head"

Visit "[Gone To Your Head](#)" on MotoLyrics.com

It's on your mind but you can't say it
It's in your eyes but you can't see it
It's on your wrist but you can't time it
It's off the top of your head but you can't wear it

It's in your face, it's in your hands
It's in the air but you can't breath it
You're not the one I used to know
Gone to your head

It's up your nose but you can't snort it
It's down your throat but you can't suck it
It's in your lap but you can't have it
It's in your reach but you can't grab it

And what if I said it's in your head
You're not the one I used to know
And what if I said it's in your head
You're not the one I used to know

Gone to your head
