"The Factory"

Visit "[The Factory](#)" on MotoLyrics.com

I was born in '63
Got a little job in the factory
I don't know much about Kennedy
I was too busy working in the factory
We got a kid that's two, we got another one due
We get by the best we can do
The factory's got a good medical plan
And, cousin, I'm a union man
Saying, Yes sir, no sir, yes sir, no sir, yes sir, no sir
I was born in Mechanicsburg
My Daddy worked for Pontiac 'til he got hurt
Now he's on disability
And I got his old job in the factory
Saying, Yes sir, no sir, yes sir, no sir, yes sir, no sir
Early in the morning I feel a chill
The factory whistle blows loud and clear
I'd kill my wife or she'd kill me
But we gotta go to work at the factory
Five days a week at the factory
Up early in the morning at the factory
I've been working in the factory
Johnny, I've been working in the factory
Kickin' asbestos in the factory
Breathin' that plastic in the factory
Punchin' out Chryslers in the factory
Makin' polyvinyl chloride in the factory
