RAP: (on intro)

Here they come, here they come
Put the hot, spotlight
On the dancin' girls tonight
Pretty little wiggies from Atlantic City
Take the stage
Claim your prize
Give it up for the fantastic five

Vocal:

The boys are rappin'
Finger snappin'
Girls are tappin' into that scene
Walk in rhythm, Talk in rhythm
Caught up in this dancin' machine
Turn the beat up, Burn the street up
Make it hot - girl ya' know what I mean
We're on fire livin' the dream

(CHORUS)

C'mon world - see the dancin' girls
Spinnin' around lookin' outta this world
We're not leavin' this night to chance
Exercising our right to dance
Make a crater on the moon
Get on up and rock this room
I wanna be your dancin' girl

Say you wanna be my dancin' girl
My dancin' girl, let me rock your world

Right where you want me is right where I'll be
Here on this planet where no one can see

Hear the night birds, sing the right words
Let the music into your heart
Come together, dance forever
All around now, reach for the stars
Close your eyes and fantasize
And now you know who you really are
Tonight you are a Superstar

CHORUS

Girl, girl, dancin' girl

I feel this sweet emotion
Keep comin' over me
Feels like a river flowin'
It's up to us to keep it goin'
I'm holdin' on to you
Doin' a dance for two
To make my dream come true

Rap

Make a crater on the moon
Get on up and rock this room
I wanna be your dancin' girl

Rap

Turn the beat up, burn the street up
Make it hot girl you know what I mean.

Rap

Close your eyes and fantasize
And now you know who you really are

Hey ya, I hear the night birds singin'
Time to wake up, but keep on the dreamin'

C'mon world see the dancin' girls
Spinnin' around lookin' outa this world

Give it up, for the fantastic five

Make a crater on the moon
Get on up and rock this room.
