Here's a story of two childhood sweethearts
And a love that we shared still untold
How our simple little vows they were broken
And our love that I treasured more than gold

Are you tired of the life that you're livin'?
Does your mind wander back to the past?
Do you think of the love you've forsaken?
Darlin' true love is too sweet to last

I remember that night in the moonlight
When you said that you'd found someone new
Do you realize the heartache you've caused me
You should know that my love was so true

Are you tired of the life that you're livin'?
Does your mind wander back to the past?
Do you think of the love you've forsaken?
Darlin' true love is too sweet to last

Alone and sad as I'm travelling
I'm lost on this sea of regret
Wandering back to the place of my childhood
And the one that I've always loved the best

Are you tired of the life that you're livin'?
Does your mind wander back to the past?
Do you think of the love you've forsaken?
Darlin' true love is too sweet to last
