Oh when, alright, when will the violence cease?  
I wonder time and time again, when will we get some  
peace?

Alright

Day or night you fear for your life

And you don't know when you'll pass a gun or a knife

Stop the violence, stop the violence, stop the violence  
Stop the violence, stop the violence, stop the violence

Hear me now, alright, while I tell it to you, now  
Tell me how, how can a human be so cruel, now  
They beat and rob you all that you've got  
In exchange for your belongings you may even get  
shot

Stop the violence, stop the violence, stop the violence  
Stop the violence, stop the violence, stop the violence

Hear me now, while I tell it to you, now, alright  
Tell me how, how can a human be so cruel, now  
They beat and rob you all that you've got  
In exchange for your belongings you may even get  
shot

Stop the violence, stop the violence, stop the violence  
Stop the violence, stop the violence, stop the violence...
