Look here, lean close, hold me with your eyes
as the morning light streams through
Release my hand, let me trace your smile
as I fall in love with you

CHORUS:

Breathe the song of the rolling dawn
as our hearts beat strong and true
Slowly day leads the dark away
as I fall in love with you

Our hearts are light as the sparrow's song
as he dances on the dew
Our hopes shine far as the morning star
as I fall in love with you

CHORUS:

Shield these eyes from the old sunrise
and recall the night we knew
Hold me now like your morning flower
as I fall in love with you

BRIDGE:

Been so long since I
wore this smile that this
heart of mine needs a
little while to...

CHORUS:

Breathe the song of the rolling dawn
as our hearts beat strong and true
Hold me now like your morning flower
as I fall in love with you
As I fall in love with you
