Come here baby, take me by the hand  
Cause I've got this feeling I don't understand, well my  
Heart's a-flutter and my head's going South, and I'm  
So distracted I could kiss your mouth, cause I'm

Hot and bothered, cool it while you can  
I will make your sundae if you be my ice cream man

Rainbow sprinkles with a cherry on top  
Get me started and I just can't stop  
Chocolate syrup, let it drip  
'Scuse me honey while I lick my lips, cause I'm

Hot and bothered, cool it while you can  
I will make your Sunday if you be my ice cream man

Sirens wailing, all over town  
Help me honey cause I'm melting down  
Oh my sugar, when you're sweet on me  
Makes me holler  
Oo-oo-oo-oooh weee, and I'm

Hot and bothered, cool it while you can  
I will make your sundae if you be my ice cream man

Hot and bothered, hot and bothered, hot and bothered  
Cool it while you, cool it while you, cool it while you can  
I will make your Sunday if you be my ice cream man  
I will make your sundae if you be my ice cream man
