

## Staple Singers, The "Bridges Instead Of Walls"

Visit "[Bridges Instead Of Walls](#)" on [MotoLyrics.com](#)

It's time we build bridges instead of walls  
And give peace a chance to come across walls  
Too long we've been isolated, it's time we  
communicated

And it's time we build bridges instead of walls  
It's time we build bridges instead of walls

It's time we make peace instead of walls  
It's time we made friends instead of guns  
All for one, the one for all  
Together we stand and divide it with all

It's time we build bridges instead of walls  
Woah, it's time we build bridges instead of walls

Woah, it's time, time we saw the other side  
And time will find the words with the other guy, he's  
alright  
Let's get to know each other better  
And no doubt we'll scream aloud

And it's time we build bridges instead of walls  
Woah, it's time we build bridges instead of walls

Oh, it's time we build bridges instead of walls  
Yeah, it's time we build bridges instead of walls

It's time we build bridges instead of walls  
It's time we build bridges instead of walls  
It's time we build bridges instead of walls
