Michelle tells me don't be afraid  
Of what people say, don't listen to them  
Maybe it's all just a dream  
Trying to see some sense in it all  
When she won't listen

I'm also lonely like you  
So kiss me Michelle  
Don't leave me holding onto

I'm also lonely like you  
So kiss me Michelle  
Don't leave me holding onto

Michelle tells me you are a lie  
Please don't pass me by  
You're all that I know  
Maybe it's just I'm too proud  
Michelle can sound so loud and so clear  
When I don't listen

I'm also lonely like you  
So kiss me Michelle  
Don't leave me holding onto

I'm also lonely like you  
So kiss me Michelle  
Don't leave me holding onto

Me Michelle don't you go  
It's the only way I know

Me Michelle don't you go  
It's the only way I know

Me Michelle don't you go  
It's the only way I know

Me Michelle
