She was waiting
thought he would come home by now
And she's ready
to live her life ready every night.

She says everything will work out
Everything will be just the way she had planned
We can have some problems,
But its Tuesday i'm feeling lonely.

She was cheated,
as a friend he's not around
and she's wondering
who will make her happy
and she wonders.

Everything will work out
Everything will be just the way she had planned
We can have some problems,
But its Tuesday i'm feeling lonely.

Monday is the day that she wants to know
who she will be with till the end of time.

I was waiting
waiting for her to decide
And i'm ready.

Everything will work out
Everything will be just the way she had planned
We can have some problems,
But its Tuesday i'm feeling lonely.(*2)
