big brother, he is a watching
watching me and you
big brother, is a watching
and he'll know your every move

their really really gonna do it to you
just wait and see
they'll be telling us what to do
and they'll want us to die laughing
and they'll want us to die laughing

giant robot, he can save us
cause he knows just what to do
giant robot, listen up
johnny sako's coming for you

johnny sako's on his wrist radio
to the mountain hideaway
giant robot, please wake up
we need you right away
we need you right away
